

SINGAPORE INTERNATIONAL WATER WEEK 2022

THE GLOBAL PLATFORM TO SHARE AND CO-CREATE INNOVATIVE WATER SOLUTIONS

17 – 21 April 2022

Sands Expo & Convention Centre
Marina Bay Sands, Singapore

17 April – 31 May 2022

On-Demand Period

Singapore International Water Week 2022 returns as a physical event from 17 to 21 April 2022 at the Sands Expo & Convention Centre in Singapore, alongside the CleanEnviro Summit Singapore.

As one of the first international water shows to be held in-person in Asia since the COVID-19 pandemic, SIWW2022 will bring stakeholders from government, utilities, industry and academia together to share best practices, policy development in water, and to present the latest in technological innovation.

With the opening up of international travel lanes into Singapore, SIWW2022 is expected to attract over 10,000 physical and virtual on-demand international, regional and local attendees looking for solutions to urban water challenges, and to build and renew business partnerships. Showcasing products and services spanning the entire urban water cycle, the SIWW2022 Water Expo will feature 350 exhibitors with the latest solutions and technologies across 3 full exhibition halls.

SIWW2022 is the place-to-be if you wish to build brand exposure for your products, as well as establish new leads and business opportunities.

Here's What Sets SIWW Apart:

SOLUTIONS & TECHNOLOGY

Innovation and solutions in urban water management, for municipal and industrial users

GLOBAL EVENT, REGIONAL FOOTPRINT

A global water event with strong relevance and application to Asia

BUSINESS & NETWORKING

Gathering of industry, utilities and governments for business collaboration and partnerships

URBAN SUSTAINABILITY

Co-located with CleanEnviro Summit to advance sustainability agenda for built urban environment

THOUGHT LEADERSHIP

Insights on latest trends, solutions and case studies in various thematic areas

Organised By:

Singapore International Water Week Pte Ltd, a company set up by Singapore's Ministry of Sustainability and the Environment and PUB, Singapore's National Water Agency

Held In Conjunction With:

Programme At A Glance

Key Highlights of SIWW2022

Utility and Industry Focused Content

Look forward to a range of utility and industry focused content, with emphasis on innovation and solutions covering end-to-end of the urban water cycle. Key thematic areas include climate resilience, resource circularity and digital water.

Launch of SIWW+

Launching at SIWW2022, the SIWW+ digital content hub will serve as the go-to online resource library for urban water solutions and innovation with feature stories, industry news, special reports and videos.

On-Demand Access to SIWW2022 Content

For wider knowledge dissemination, all sessions organised during SIWW2022 will be available for on-demand viewing via SIWW+. This allows interested participants who are unable to come to Singapore to learn from the diverse content offerings.

Value-Added Programmes for Exhibitors

Our Hosted Buyers and Distributor/Reseller Programmes allow exhibitors to build new business leads with regional trade visitors, while Product Showcase sessions offer opportunities to showcase latest products, solutions and innovation in the Expo.

NEWBrew Makes a Return

NEWBrew will make its comeback at SIWW2022! Brewed with NEWater, Singapore's own brand of high-grade reclaimed water, the special brew is set to return with a twist.

SIWW Flagship Programmes

Water Leaders Summit

A by-invitation gathering of global water leaders and experts, solutions, innovation and policy interventions to solving the world's pressing water urban challenges are presented and discussed to spur collective action by the international water community.

Young Water Leaders Programme

A two-year leadership programme for next-generation global water utility leaders, offering valuable learning, networking and exposure opportunities during and post-SIWW. Programme includes engagement with industry leaders and exchange visits with PUB.

Lee Kuan Yew Water Prize

Honouring outstanding contributions by individuals or organisations towards solving the world's water challenges by developing or applying innovative technologies, policies or programmes which benefit humanity. This prestigious international award is named after Singapore's first Prime Minister Lee Kuan Yew, whose foresight and leadership have enabled Singapore to attain a sustainable water supply.

Thematic and Business Forums

Thematic forums provide a deep dive into emerging urban water issues – unpacking key challenges, highlighting important trends and demonstrating global applications of sustainable solutions.

Business forums examine business opportunities and challenges in water projects in Asia, share critical information to improve market understanding, and provide insights into market prospects.

Water Convention

As a technical conference, the Water Convention gathers water professionals and practitioners to share knowledge, experiences and engage in discussions through oral and poster presentations showcasing sustainable technological solutions, case studies and applied processes and management strategies under the following themes

1. Delivering Water from Source to Tap (Network);
2. Delivering Water from Source to Tap (Treatment);
3. Effective and Efficient Wastewater Management;
4. Cities of the Future;
5. Water Quality and Health;
6. Nexus and Circularity

Water Expo

A global event with a regional footprint, SIWW connects water companies to the greater Asia region, and creates opportunities for trade and business. With 14 country/regional pavilions, and three new thematic Pavilions (Start-Up, Climate Resilience and Digital Solutions), the Expo provides a one-stop platform for buyers to source for innovative urban water solutions spanning the water cycle.

Technical Visits

These visits offer first-hand experience to Singapore's integrated approach in achieving water sustainability. They exemplify the best of sustainable urban and water solutions, allowing participants to gain insights on Singapore's urban transformation into a City of Gardens and Water.

TechXchange

Designed to connect innovators with partners, buyers and investors to accelerate commercialisation of new water technologies from lab to market. The TechXchange forum has been set up to foster interactive debate, generate networking opportunities, present innovative technologies and facilitate discussions hosted by industry leaders.
